This condominium is being developed by 1177 Bay Harbor Islands, LLC, a Delaware limited liability company ("Developer"). Any and all statements, disclosures and/or representations shall be deemed made by Developer and you agree in full liability to Developer with respect to any and all matters relating to the marketing and/or development of the Condominium and with respect to the sales of units in the Condominium. Our representations cannot be relied upon or construed as constituting the representations of the developer. For correct representations, make reference to this brochure and to the documents required by section 718.503, Florida Statute, to be furnished by a developer to a buyer or lessee. These materials are not intended to be an offer to sell or solicitation to buy a unit in the condominium. Such an offering shall only be made pursuant to the prospectus (offering circular) for the condominium and no statements shall be relied upon unless made in the prospectus or in the applicable purchase agreement, in no event shall any solicitation, offer or sale of a unit in the condominium be made in, or to residents of, any state or country in which such activity would be unlawful. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the center line of interior demising walls and in fact vary from the square footages and dimensions that would be determined by using the descriptions and definition of the "Unit" set forth in the Declaration which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements. This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floor plan are generally taken at the furthest points of each given room (as if the rooms were perfect rectangles), without regard for any setbacks or variations. Accordingly, the area of the actual rooms will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and/or development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
